The Libraries Keep Growing

This booklet contains a current listing of the libraries available to users of *LEXIS*, the world's most widely used computer-assisted legal research service.

Since the last edition of this booklet, many valuable new sources of information have been added to *LEXIS*. An Energy library has recently become available. The United Kingdom libraries have been extensively augmented. Important secondary works from Matthew Bender & Company are now on-line. Attorney general opinions will be added to eight state libraries in the third quarter of 1982. A new Public Contracts library will be added in 1982.

As usual, much material has also been added to *NEXIS®*, the general news and business information service available to users of *LEXIS*. Of particular interest to lawyers is the *NEXIS®* inclusion of *Advertising Compliance Service*.

This new edition of *LEXIS Libraries* once again demonstrates that *LEXIS* continues to offer the largest electronic research base available to the legal profession.
